

## Free Water Conservation Devices

Water conserving devices are available for pickup at the Public Works Administration Office, located at 777 B Street, Fourth Floor, Hayward, CA.

Devices available include:

- Water conserving showerheads (2.0 gallons per minute)
- Kitchen faucet aerators (2.0 gallons per minute)
- Bathroom faucet aerators (1.5 gallons per minute)

### Hours of Operation

Devices can be picked up at the above location Monday thru Friday from 8:30 a.m. to 5:00 p.m.

Note: For multi-family accounts, there is a limit of 10 of each device types and only one set of devices per unit.

For more information please email [Utilities.administration@hayward-ca.gov](mailto:Utilities.administration@hayward-ca.gov) or call 510-583-4700.

*Water conservation devices save water and money too.*

**Pre-rinse Spray Valves (Commercial Use) – low flow pre-rinse spray valves use 1.6 gallons of water, while traditional models use 3 to 5 gallons per minute. Low-flow valves are easy to install and are available at no charge to restaurants, food processing facilities and institutional kitchens that are currently using a 3.5 gpm unit or higher.**
